Profile

I have a bachelor degree in **Automated Systems Science** and **Computer science**.

Currently studying for master degree at *UPB ACS-Internet Systems Engineering*

Web Developer with **Front-end** focus - **Angular**

Employment History

Software Engineer, Tremend Software Consulting (Publicis Groupe),
Bucharest

July 2021 — September 2023

- Currently working as a Front-end Developer in an **Angular 10** project. The project involves developing a **CRM** platform for an internal organization. I utilize my skills in **JavaScript**, **Angular**, **SCSS/SASS**, **MongoDB**, and **PostgreSQL**. My responsibilities include building reusable components and resolving bugs.
- Previously worked as a Front-end Developer in a **Drupal** project. The project focused on creating a platform for an internal organization. During this role, I leveraged my expertise in **SCSS** and also gained experience in **PHP** for template customization.
- Served as a Back-end Developer in a project where I utilized my **JavaScript** skills in **NodeJS** and **BGC** (Big Query Google). My main responsibility was to retrieve data, perform data manipulation, and develop **REST APIs** to transfer the data to another database.
- Contributed as a Front-end Developer in a **Moodle** project. The project involved building an e-learning platform using **Moodle** and **SCSS**.
- Also engaged in Front-end development in an **Angular 11** project. In this role, I focused on building reusable components and bug fixes for an e-learning platform.

Education Mentor, GoIT, Bucharest

January 2023 — Present

- Served as a mentor, providing guidance and support to students for the successful execution of the FullStack Developer Course. The course comprised various modules, including HTML&CSS, JavaScript, NodeJS, and ReactJS.

Main tasks included:

- Conducting daily/weekly code reviews on student homework assignments.
- Providing support on Slack for any questions students had regarding their homework or projects.
- Facilitating open sessions with a group of 40-50 students, where I answered their questions and provided guidance.

General Manager, SC SILRIN TRADE SRL, Ramnicu Valcea

January 2012 — September 2017

The principal activity of the company was in Horeca sector.

My main duties in this Company were: oversee day-to-day operations, recruit, onboard
